PREFACE

No city or town of today can expect to prosper or progress without making adequate municipal improvements; without such it will never be looked upon as being any good, or having any future; but simply will be called dead or a has-been. In business circles, the City Directory is just as important to the health and vigor of a business, whatever line it may be, as municipal improvements are to the health and vigor of a town; they both go hand in hand; they both mean progress; for they both stand for

EFFICIENCY

which fact is being more vividly demonstrated every day; for there are thousands of City Directories in use now, where there were to be found comparatively very few only a very short period ago.

The business world has awakened to the realization of this need; and there are few towns of any consequence that do not have a City Directory. Just how up-to-date or complete the Directory is, depends in most cases upon the support accorded to the publishers, provided, of course, that they know their business.

It is an old saying that you can judge a man by the clothes he wears—whether this be true or not matters little; we all know that it is generally done; often no doubt to the disadvantage of someone. Just as much as man is judged by his clothes, just so much is the business life and activities of a town or community judged by its Directory; because the Directory is the most complete and the only recognized standard book of reference regarding the citizens of a community, their address, occupation or kind of business in which they are engaged. When you consult a Directory of a town, you can easily determine if it is up to the standard, and if you find it to be well patronized, you need not be told that it belongs to a live community—the fact is self-evident.

It is therefore with pleasure that we present Vol. VI of the High Point (N. C.) City Directory, for the fact is self-evident that we are doing business in a live community.

A PERSISTENT ADVERTISER

One of the most persistent advertisers in the history of success was Robinson Crusoe.

He believed in advertising.

He knew what he wanted—a ship.

And he put up an ad for one.

He flung a shirt on a pole at the top of his island; that, in the language of the sea, was plain to every seafaring man.

The circulation was small and there was no other medium, but Crusoe kept it there despite the fact that he got no inquiries for a long time. He changed his copy—as one garment after another was flapped out—and in the end got what he wanted, was happy, and his name and fame have come down through the ages.

The present-day merchant is much better off than Crusoe.

He has the City Directory, through which he can reach all the people, some of whom want his goods. Your chances of success are thousands to his one, but your chances of failure are the same as his.

Suppose Robinson Crusoe had taken down that signal after, say a year, and declared, "Advertising doesn't pay," where would he and his story now be?

Put up your signal and keep it up. There will be a number of ships cruising around during the year that will be glad to call and take you off the island of Dull Business.

Crusoe advertised under discouraging circumstances. You have got a sure thing—The City Directory.

Mr. Manufacturer, Merchant (Wholesale and Retail):

No other Publication in the world so thoroughly represents the commercial, social and private interests of your city as The City Directory. Representing, as it does, every private citizen from the hovel to the mansion; every commercial, social, religious and educational institution and all other data pertaining to your city, it is beyond question the most accurate and complete index to the city and its various interests in existence.

The Directory is the dictionary to the city and the next Directory we will issue for your city shall be The Unabridged Edition, "The first aid to strangers and a standard remedy for homefolks," accurate, complete and up-to-date in every respect. Unusual prospects of profit (direct and indirect) and civic Pride should influence every manufacturer and business man to have full representation in this Directory, and every well-governed home to have a copy of the latest Directory for the use and convenience of strangers and visitors. "Know thyself" is sound medical advice; Know Your City is equally good business advice. To do this you must consult The Directory.

For it's a fact that The Directory is your city's only standing representative to the world beyond your own gates and the only index to your city's growth and prosperity. A well-patronized city directory indicates a good city to locate in.

Yours truly,

THE HOUSE OF DIRECTORIES, Ernest H. Miller, Pres. and Genl. Mngr.

YOU

Can say it in a good many ways, including "With Flowers," however, when YOU SAY it in a City Directory "Ad" you say it RIGHT.

The City Directory

Reaches the people you want to reach and brings results. We call your attention to the many who repeat their "ads" from year to year.

Local Advertising

There is no advertising medium that reaches the prospective buyer in the same way, time, or place, as does the City Directory. It brings results. Try it.

Out-of-Town Advertising

The City Directory carries your message to a good many places, some far distant. We have numerous libraries throughout the country in which we keep up-to-date directories of all leading cities. It gives you PRESTIGE in a class above the average, when you place your "ad" with us.

Try It and Be Convinced
